Stack after the following...

1. Before executing call FDIV (at 4040020) in Main:
```
        N/A
        N/A
        . . .
```

2. Before executing mov eax, ebx (at 4040026) in Main:
```
        N/A
        N/A
        . . .
```

3. Before executing Push ebx (at 4041040) in FDIV:
```
  Return Address (4040026)
        N/A
        . . .
```

4. Before executing Push ecx (at 4041044) in FDIV:
```
  Saved EBX (value: 5612h)
  Return Address (4040026)
        N/A
        . . .
```

5. Before executing mov eax, edx (at 4041048) in FDIV:
```
  Saved ECX
  Saved EBX (5612h)
  Return Address (4040026)
        N/A
        . . .
```

6. Before executing Pop ecx (at 404A060) in FDIV:
```
  Saved ECX
  Saved EBX (5612h)
  Return Address (4040026)
        N/A
        . . .
```

7. Before executing Pop ebx (at 404A062) in FDIV:
```
  Saved EBX (5612h)
  Return Address (4040026)
        N/A
        . . .
```

8. Before executing ret (at 404A064) in FDIV:
```
  Return Address (4040026)
        N/A
        . . .
```
